

30 October 2021 | Saturday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
09.00-10.15	 SESSION 1 PANEL  <p>AIM: To discuss new treatment approaches in lung cancer and mesothelioma</p> <p>SCOPE: Targeted therapy approaches in patients with EGFR, ALK and ROS1 mutations in NSCLC, immunotherapy in SCLC, and immunotherapy and targeted therapies in mesothelioma will be discussed.</p> <p>CURRENT TREATMENT APPROACHES IN THORACIC TUMORS</p> <p>Session Chairs: Aydın Yılmaz, Güntülü Ak</p> <p>09:00-09:20 Hitting new targets in NSCLC Ufuk Yılmaz</p> <p>09:20-09:40 Immunotherapy in SCLC Ülkü Yılmaz</p> <p>09:40-10:00 New therapies in mesothelioma Dean Fennell</p> <p>10:00-10:15 Discussion</p>	 SESSION 2 PANEL  <p>AIM: To discuss tuberculosis control in the world and Turkey, and the impact of migrations on tuberculosis control</p> <p>SCOPE: The status of tuberculosis, which has maintained its importance as a global problem for ages, in the world and in our country, and the effect of uncontrolled migration in recent years on tuberculosis control will be discussed.</p> <p>FIGHT AGAINST TUBERCULOSIS IN THE WORLD AND IN TURKEY</p> <p>Session Chairs: Zeki Kılıçaslan, Dursun Tatar</p> <p>09:00-09:20 Tuberculosis control during the COVID-19 pandemic: Global challenges and perspectives Giovanni Migliori</p> <p>09:20-09:40 Tuberculosis in Turkey Şeref Özkara</p> <p>09:40-10:00 Tuberculosis after migration Pınar Çimen</p> <p>10:00-10:15 Discussion</p>	 SESSION 3 PANEL  <p>AIM: To discuss problems in the post-COVID subacute period</p> <p>SCOPE: Radiological signs in the post-COVID period will be defined, followed by a discussion on managing organizing pneumonia, cavity lesions and vascular consequences of the disease such as PTE and vasculitis.</p> <p>OUT OF PANDORA'S BOX-1: POST-COVID PROLONGED SYMPTOMATIC PERIOD</p> <p>Session Chairs: Figen Atalay, Dilek Ernam</p> <p>09:00-09:15 Radiological signs Canan Akman</p> <p>09:15-09:30 Approaches to organizing pneumonia Özlem Özdemir Kumbasar</p> <p>09:30-09:45 Approaches to cavity lesions Yusuf Aydemir</p> <p>09:45-10:00 Approaches to vascular involvement Pınar Yıldız Gülhan</p> <p>10:00-10:15 Discussion</p>	 SESSION 4 PANEL  <p>AIM: An intellectual journey to science</p> <p>SCOPE: Definition of science, its methods, history of science and its future evolution with technology will be analyzed and its direction in the world and in Turkey will be discussed.</p> <p>SCIENCE</p> <p>Session Chairs: Mecit Süerdem, İbrahim Onur Alıcı</p> <p>09:00-09:30 Philosophy of science Ahmet İnam</p> <p>09:30-10:00 Science in the world and in Turkey Hüseyin Gazi Topdemir</p> <p>10:00-10:15 Discussion</p>
10.20-10.40	COFFEE BREAK			
10.45-11.45	 SESSION 5 PRO-CON MEETING  <p>AIM: To discuss the ideal biopsy method in the diagnosis of interstitial lung diseases</p> <p>SCOPE: Transbronchial cryobiopsy, a topical subject in the diagnosis of interstitial lung diseases, and surgical biopsy will be discussed and scientific grounds will be laid for our country practice.</p> <p>BIOPSY ARENA: IN THE DIAGNOSIS OF INTERSTITIAL LUNG DISEASES</p> <p>Session Chairs: Nurettin Karaoğlu, Ayperi Öztürk</p> <p>10:45-11:10 Cryobiopsy Venerino Poletti</p> <p>11:10-11:35 Surgical Biopsy Onur Akçay</p> <p>11:35-11:45 Discussion</p>	 SESSION 6 MINI CONFERENCE  <p>AIM: To discuss the systemic effects of pneumonia and its course in elderly patients</p> <p>SCOPE: Factors that affect the transition of pneumonia from a local disease to a systemic disease, effects of extrapulmonary involvement and especially of cardiovascular system on morbidity and mortality, and the management of pneumonia in elderly who use multiple drugs due to their co-morbidities will be discussed.</p> <p>MINI CONFERENCE</p> <p>Session Chairs: Arzu Ertürk, Esra Ertan Yazar</p> <p>10:45-11:10 Pneumonia as a systemic disease Emel Ceylan</p> <p>11:10-11:35 Pneumonia is a special disease in the elderly Serap Duru</p> <p>11:35-11:45 Discussion</p>	 SESSION 7 PRO-CON MEETING  <p>AIM: To discuss treatment options for locally advanced NSCLC after chemoradiotherapy</p> <p>SCOPE: Two disciplines will discuss the results of surgical procedures and immunotherapy with current literature.</p> <p>WHAT DO I DO IN LOCALLY ADVANCED NSCLC AFTER CHEMORADIO THERAPY? - In honor of Meral Gülhan</p> <p>Session Chairs: Ülkü Yılmaz, İrfan Taştepe</p> <p>10:45-11:10 Surgery Soner Gürsoy</p> <p>11:10-11:35 Immunotherapy Meral Gülhan</p> <p>11:35-11:45 Discussion</p>	 SESSION 8 PANEL  <p>AIM: To discuss breath analysis in lung diseases</p> <p>SCOPE: Breath analysis, which is a hot research topic in the diagnosis of both malignant and benign lung diseases will be discussed in terms of volatile compounds and genomic material.</p> <p>BREATH BIOPSY</p> <p>Session Chairs: Deniz Köksal, Muzaffer Onur Turan</p> <p>10:45-11:10 In directing diagnosis and treatment of lung cancer Muzaffer Metintaş</p> <p>11:10-11:35 In the diagnosis of chronic lung diseases Aslı Tetik Vardarlı</p> <p>11:35-11:45 Discussion</p>
11.50-12.10	COFFEE BREAK			
12.15-13.30	SESSION 9 SATELLITE SYMPOSIUM - S1	 SESSION 10 PANEL  <p>AIM: To discuss the potential harms of new tobacco products</p> <p>SCOPE: The impact of new tobacco products on health, whether they have any impact on smoking cessation, national and international regulations and their role in media will be discussed.</p> <p>NEW FACES OF POISON: NEW TOBACCO PRODUCTS AND E-CIGARETTE</p> <p>Session Chairs: Toket Ergüder, Osman Örsel</p> <p>12:15-12:30 Impact on health Zeynep Atam Taşdemir</p> <p>12:30-12:45 Is the goal to make one quit or start smoking? Hasan Volkan Kara</p> <p>12:45-13:00 National and international regulations Nazmi Bilir</p> <p>13:00-13:15 Their place in media Şule Akçay</p> <p>13:15-13:30 Discussion</p>	 SESSION 11 PANEL  <p>AIM: To update information on bronchiectasis</p> <p>SCOPE: Bronchiectases related and not related to cystic fibrosis from childhood to adulthood, developments in treatment and the importance of bronchial hygiene will be discussed.</p> <p>BRONCHIECTASIS</p> <p>Session Chairs: Berna Kömürçüoğlu, Yılmaz Bülbül</p> <p>12:15-12:30 Cystic fibrosis-related bronchiectasis Nural Kiper</p> <p>12:30-12:45 Non-cystic fibrosis bronchiectasis Antoni Torres</p> <p>12:45-13:00 Novel treatments Sezai Taşbakan</p> <p>13:00-13:15 Bronchial hygiene Pınar Ergün</p> <p>13:15-13:30 Discussion</p>	 SESSION 12 MINI CONFERENCE  <p>AIM: To discuss 3D printers</p> <p>SCOPE: 3D printers in lung diseases, areas of use, custom-made stents, 3D printers in tracheal and thoracic surgery will be discussed.</p> <p>WHAT WILL 3D PRINTERS BRING TO LUNG DISEASES?</p> <p>Session Chairs: Asiye Kanbay, Hasan Volkan Kara</p> <p>12:15-12:35 Expectations in bronchology Cengiz Özdemir</p> <p>12:35-12:55 Expectations in thoracic surgery Ayten Kayı Cangir</p> <p>12:55-13:15 Discussion</p>
13.35-13.55	COFFEE BREAK			

30 October 2021 | Saturday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
14.00-15.15	SESSION 13 SATELLITE SYMPOSIUM - S2	 SESSION 14 INTERACTIVE CASE PRESENTATIONS AIM: To discuss basic approaches in interventional pulmonology and making a contribution to setting standards for the right approaches SCOPE: The best experts in their relevant fields will discuss whole-lung lavage, management of airway obstruction and transbronchial cryobiopsy with case presentations HOW DO I DO IT? Session Chairs: Levent Dalar, Cengiz Özdemir 14:00-14:15 Whole-lung lavage Sinem Nedime Sokücü 14:15-14:30 Hot and cold methods Onur Fevzi Erer 14:30-14:45 Stenting Ömer Ayten 14:45-15:00 Transbronchial cryobiopsy Ayper Öztürk 15:00-15:15 Discussion	 SESSION 15 INTERACTIVE CASE PRESENTATIONS AIM: To discuss rights and wrongs in the management of pulmonary nodules by case presentations SCOPE: By four different case presentations the challenges in the management of coincidentally detected pulmonary nodules will be discussed. FOLLOW-UP OF PULMONARY NODULES- CASE PRESENTATIONS Session Chairs: Atilla Saygi, Recep Savaş 14:00-14:15 Case 1 - Pure ground-glass nodule Celal Satıcı 14:15-14:30 Case 2 - Part-solid nodüle Pınar Akın Kabalak 14:30-14:45 Case 3 - Solid nodüle Sertaç Arslan 14:45-15:00 Case 4 - Cystic/cavitary nodule Derya Kızılgoz 15:00-15:15 Discussion	 SESSION 16 PANEL AIM: To discuss the impact of social signifiers and inequalities on lung health SCOPE: The impact of gender, socio-economic status and migration on lung diseases will be discussed. THE IMPACT OF SOCIAL SIGNIFIERS OF HEALTH ON LUNG DISEASES - In honor of Mustafa Hikmet Özhan Session Chairs: Can Öztürk, Sezai Taşbakan 14:00-14:20 The impact of gender Mustafa Hikmet Özhan 14:20-14:40 The impact of socio-economic status Selma Metintaş 14:40-15:00 The impact of migration Aliye Mandıracıoğlu 15:00-15:15 Discussion
15.30-16.45	SESSION 17 SATELLITE SYMPOSIUM - S3	 SESSION 18 PANEL AIM: Update on progressive fibrotic interstitial lung diseases SCOPE: Progressive fibrotic interstitial lung diseases will be discussed at length from definition to underlying mechanisms, diagnostics, treatment and prognosis in the light of current information APPROACH TO PROGRESSIVE FIBROTIC INTERSTITIAL LUNG DISEASES Session Chairs: Ünal Şahin, Fulsen Bozkuş 15:30-15:50 Definition and etiology Oğuzhan Okutan 15:50-16:10 Diagnostic approach Nilgün Yılmaz Demirci 16:10-16:30 Treatment and prognosis Funda Coşkun 16:30-16:45 Discussion	 SESSION 19 PANEL AIM: To discuss how to assess PAP recordings SCOPE: Downloading and interpretation of recordings in the follow-up of patients using PAP machine -the gold standard of treatment for sleep-related respiratory disorders- will be discussed. DOWNLOADING AND INTERPRETING PAP RECORDINGS Session Chairs: Oğuz Köktürk, Duygu Özal 15:30-15:45 Downloading PAP recordings Sema Saraç 15:45-16:00 Interpreting CPAP, APAP recordings Asiye Kanbay 16:00-16:15 Interpreting BPAP recordings Ahmet Ursavaş 16:15-16:30 Interpreting ASV recordings Handan İnönü Köseoğlu 16:30-16:45 Discussion	 SESSION 20 PANEL AIM: To discuss translational medicine practices in lung diseases SCOPE: Developments in translational medicine in a range of topics from studies which started in the cell and resulted in targeted therapies to proteomic approaches, epithelial-mesenchymal transition which is a mechanism causing lung diseases and studies in our country will be discussed. TRANSLATIONAL MEDICINE IN CHEST DISEASES Session Chairs: Ülkü Yılmaz, Muzaffer Metintaş 15:30-15:45 From patient to life, from molecule to drug Urartu Özgür Şafak Şeker 15:45-16:00 Proteomic approaches Nurhan Özlü 16:00-16:15 Process of a translational research: What does epithelial-mesenchymal transition cost to the lung? Özlen Konu 16:15-16:30 Examples of translational medicine from our country Ayşe Caner 16:30-16:45 Discussion
16.50-17.10	COFFEE BREAK			

30 October 2021 | Saturday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
17.15-18.15	SESSION 21 SATELLITE SYMPOSIUM - S4	 SESSION 22 MINI CONFERENCE AIM: Keeping organ transplantation on the agenda SCOPE: The current status of lung transplantation -which has been performed successfully in our country for the last decade- and living donor method -which is used to increase the limited number of donors to make sure that more patients have access- will be discussed. LUNG TRANSPLANTATION Session Chairs: Bedrettin Yıldızeli, İbrahim Onur Alici 17:15-17:40 Current status in our country Erdal Yekeler 17:40-18:05 Living-donor transplantation Takahiro Oto 18:05-18:15 Discussion	 SESSION 23 PRO-CON MEETING AIM: Update on prolonged treatment of thromboembolism SCOPE: Use of DOAC vs. warfarin in the prolonged treatment of thromboembolism will be discussed on a pro-con platform. MY PREFERENCE IN PROLONGED TREATMENT OF THROMBOEMBOLISM Session Chairs: Melih Büyükkşirin, Bülent Altınsoy 17:15-17:40 Warfarin Onur Yazıcı 17:40-18:05 Direct oral anticoagulants Fulsen Bozkuş 18:05-18:15 Discussion	 SESSION 24 PANEL AIM: To discuss the impact of microbiota on lung diseases SCOPE: The role of microbiota in the pathogenesis and treatment of lung diseases from COVID-19 to IPF and COPD will be discussed. LUNG MICROBIOTA: CLINICAL AND THERAPEUTIC INFERENCES Session Chairs: Arzu Mirici, Seda Tural Öner 17:15-17:30 Microbiota in patients with COVID-19 Ener Çağrı Dinleyici 17:30-17:45 The role of microbiota from pathogenesis to treatment target in IPF patients David O'Dwyer 17:45-18:00 The role of the microbiota on COPD treatment Philip Hansbro 18:00-18:15 Discussion
18.30-19.45	 SESSION 25 PANEL  AIM: To discuss the management of thoracic surgery complications SCOPE: Multidisciplinary approaches to the management of post-thoracic surgery complications will be discussed. MANAGEMENT OF COMPLICATIONS AFTER THORACIC SURGERY Session Chairs: İrfan Taştepe, Can Sevinç 18:30-18:45 Management of post-operative respiratory failure Derya Hoşgün 18:45-19:00 Management of post-operative pulmonary infections Sibel Yurt 19:00-19:15 Surgical approach in management of post-operative complications Göktürk Fındık 19:15-19:30 Management of post-operative venous thromboembolism Namita Sood 19:30-19:45 Discussion	 SESSION 26 PANEL  AIM: To identify the status of health professionals affected by COVID-19 in the world and in our country and framing their legal rights SCOPE: The status of health professionals who have relentlessly fought against COVID-19 and been affected by it during the pandemic will be discussed, some legal concepts which may sometimes be confusing will be explained, their rights granted by the social security system and laws will be identified and protection of occupational health will be discussed. COVID-19 AS AN OCCUPATIONAL DISEASE AMONG HEALTH PROFESSIONALS: SITUATION IN THE WORLD AND IN OUR COUNTRY Session Chairs: Cebirail Şimşek, Ayşe Coşkun Beyan 18:30-18:50 COVID-19 as an occupational disease in our country and in the world Gülten Sarı 18:50-19:10 Confusion: Occupational disease or work disability? Cebirail Şimşek 19:10-19:30 Occupational health in offering healthcare services during the pandemic Ayşe Coşkun Beyan 19:30-19:45 Discussion	 SESSION 27 INTERACTIVE CASE PRESENTATIONS  AIM: To discuss pulmonary rehabilitation approaches in different diseases SCOPE: Pulmonary rehabilitation will be discussed within the context of patients with COPD and IPF -who need it the most- and patients difficult to be wean from mechanical ventilation. PULMONARY REHABILITATION WITH VIDEOS Session Chairs: İnci Gülmez, Gazi Gülbaş 18:30-18:50 In COPD patient Gökşen Kuran Aslan 18:50-19:10 In IPF patient Buket Akıncı 19:10-19:30 In weaning stage Esra Pehlivan 19:30-19:45 Discussion	 SESSION 28 PANEL  AIM: To discuss the role of artificial intelligence in lung diseases SCOPE: Following the discussion of basic concepts of artificial intelligence -a topical subject in many areas- its role in the description of thoracic images and pathological preparations by using multiple clinical data will be discussed. LUNG AND ARTIFICIAL INTELLIGENCE Session Chairs: Evrim Eylem Akpınar, Yusuf Aydemir 18:30-18:45 Artificial intelligence: Basic concepts Alper Odabaş 18:45-19:00 Artificial intelligence by using multiple clinical data Hakan Çevikalp 19:00-19:15 Artificial intelligence in thoracic imaging Stephen M. Humphries 19:15-19:30 Artificial intelligence in the evaluation of pathology slides Reinhard Büttner 19:30-19:45 Discussion

31 October 2021 | Sunday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
09.00-10.15	 SESSION 29 INTERACTIVE CASE PRESENTATIONS <p>AIM: To discuss problems faced during mechanical ventilation SCOPE: Frequent problems faced during NIMV and IMV, and treatment of patients with tracheostomy will be discussed with case presentations. PROBLEM-SOLVING IN PATIENTS ON MECHANICAL VENTILATION Session Chairs: Cenk Kıraklı, Ebru Ortaç Ersoy 09:00-09:20 In patients on NIMV Akin Kaya 09:20-09:40 In patients on IMV Kazım Rollas 09:40-10:00 In patients with tracheostomy Pervin HANCI 10:00-10:15 Discussion</p>	 SESSION 30 PANEL <p>AIM: To discuss the implications of respiratory physiology in clinical practice SCOPE: Pathophysiology of a range of respiratory system diseases such as obstructive diseases like asthma, COPD, interstitial lung diseases and vascular diseases will be discussed. PHYSIOPATHOLOGY OF RESPIRATORY DISEASES Session Chairs: Ali Fidan, Erdinç Ercan 09:00-09:20 In obstructive diseases Emine Gülderen Şahin 09:20-09:40 In restrictive diseases Fadil Özyener 09:40-10:00 In CTEPH Funda Coşkun 10:00-10:15 Discussion</p>	 SESSION 31 ROUND TABLE <p>AIM: To increase awareness about sleep disorders SCOPE: Polysomnography, gold standard as a diagnostic method for sleep disorders, and sleep disorders with video recordings will be discussed at length. POLYSOMNOGRAPHY and SLEEP DISORDERS WITH VIDEO RECORDINGS Session Chairs: Ahmet Ursavaş, Handan İnönü Köseoğlu 09:00-09:15 Sleep-related respiratory disorders Ahmet Cemal Pazarlı 09:15-09:30 Hypersomnias and circadian rhythm sleep - wakefulness disorders Öğüz Köktürk 09:30-09:45 Parasomnias Handan İnönü Köseoğlu 09:45-10:00 Sleep related movement disorders İlker Yon 10:00-10:15 Discussion</p>	 SESSION 32 MINI CONFERENCE <p>AIM: To discuss cost analysis and research funds in pulmonary diseases SCOPE: Basic concepts used in cost analysis will be summarized and examples from lung diseases will be discussed. The discussion will also dwell on how and where researchers can find funds for their projects, how to proceed in this process, cases to be aware of and tips for getting support. MINI CONFERENCE Session Chairs: Sedat Altın, Öner Abidin Balbay 09:00-09:25 Cost analysis of lung diseases Melih Kaan Sözmen 09:25-09:50 How can I get funds for my research? Öner Abidin Balbay 09:50-10:15 Discussion</p>
10.20-10.40	COFFEE BREAK			
10.45-11.45	 SESSION 33 INTERACTIVE CASE PRESENTATIONS <p>AIM: To draw attention to infections rarely seen in clinical practice and intensive care SCOPE: Clinical signs of lung infections caused by rare agents, their diagnosis and treatment will be discussed with case presentations. WHAT TO REMEMBER IN THE ETIOLOGY OF LUNG INFECTIONS Session Chairs: Erdoğan Çetinkaya, Müge Aydoğdu 10:45-11:00 Rare microorganisms Aysun Şengül 11:00-11:15 Non-tuberculous mycobacteria Özgür Batum 11:15-11:30 Unusual infections in intensive care Melda Türkoğlu 11:30-11:45 Discussion</p>	 SESSION 34 MINI CONFERENCE <p>AIM: To update in occupational asthma and discuss national guideline on pneumoconiosis SCOPE: Occupational asthma diagnosis and treatment and reporting and monitoring of pneumoconiosis will be discussed. MINI CONFERENCE Session Chairs: Arif Hikmet Çımrın, Nur Şafak Alıcı 10:45-11:10 Occupational asthma Nur Şafak Alıcı 11:10-11:35 Health surveillance, clinical diagnosis, registration, reporting of and monitoring protocol for pneumoconiosis. Adem Koyuncu 11:35-11:45 Discussion</p>	 SESSION 35 MINI CONFERENCE <p>AIM: To draw attention to respiratory problems in geriatric patients, frailty in COPD and sarcopenia SCOPE: Ways to cope with dyspnea, hemoptysis, infection, malignancy and sleep disorders seen frequently together with aging population and frailty and sarcopenia in COPD patients will be discussed. MINI CONFERENCE Session Chairs: Türkan Tatlıoğlu, Mukadder Çalikoğlu 10:45-11:10 Management of respiratory problems in geriatric patients Nazan Şen 11:10-11:35 Different indicators in COPD: Frailty and sarcopenia Sinem Nedime Sokucu 11:35-11:45 Discussion</p>	 SESSION 36 PANEL <p>AIM: To keep fight against tobacco on the agenda SCOPE: Addiction at childhood and adolescence, adulthood addiction, fighting against tobacco and political determination will be discussed and ways to strengthen the fight against tobacco will be sought. COMBATTING TOBACCO AMONG YOUNG AND OLD Session Chairs: Nazmi Bilir, Şule Akçay 10:45-11:00 Passive smoke exposure in children and tobacco use in adolescents Sevgi Pekcan 11:00-11:15 The most important motivation for adults to quit smoking: Pregnancy and children Özlem Sönmez 11:15-11:30 As a country, where are we in combatting tobacco? Cevdet Erdöl 11:30-11:45 Discussion</p>
11.50-12.10	COFFEE BREAK			
12.15-13.30	SESSION 37 SATELLITE SYMPOSIUM - S5	 SESSION 38 PANEL <p>AIM: To discuss the management of long-term effects of COVID-19 on lungs SCOPE: Risk groups for post-COVID syndrome, pharmacological management of pulmonary fibrosis, respiratory support and rehabilitation will be discussed. OUT OF THE PANDORA'S BOX -2: POST-COVID SYNDROME Session Chairs: Oğuzhan Okutan, Sertaç Arslan 12:15-12:30 Who has more risk? Figen Ergür 12:30-12:45 Management of pulmonary fibrosis Ceyda Anar 12:45-13:00 Respiratory support Fatih Seğmen 13:00-13:15 Pulmonary rehabilitation Thierry Troosters 13:15-13:30 Discussion</p>	 SESSION 39 INTERACTIVE CASE PRESENTATIONS <p>AIM: To discuss asthma treatment by case presentations SCOPE: Asthma will be discussed at length focusing on a range of issues from mild asthma to severe asthma requiring biologic agent, asthma-COPD overlap and ABPA ASTHMA WITH CASE PRESENTATIONS Session Chairs: Kurtuluş Aksu, Levent Cem Mutlu 12:15-12:30 Case 1 - Differential diagnosis in mild asthma Gözde Köycü 12:30-12:45 Case 2- ABPA Bilge Salık 12:45-13:00 Case 3- COPD Overlap Pınar Mutlu 13:00-13:15 Case 4- Severe asthma requiring change of biologic agent Arzu Didem Yalçın 13:15-13:30 Discussion</p>	 SESSION 40 PANEL <p>AIM: To discuss the clinical implications of genetic and epigenetic interactions in smoking addiction, COPD and IPF SCOPE: The role of genetics in smoking addiction - the arch enemy of lungs,- the impact of endotype on COPD phenotype, and the lung aging in IPF will be discussed. IS UNDERSTANDING GENETICS ENOUGH TO SOLVE THE PROBLEM? Session Chairs: Nazmi Bilir, Funda Coşkun 12:15-12:35 Genetic basis of smoking addiction Mesut Erzurumluoğlu 12:35-12:55 COPD and accelerated lung aging Peter J.Barnes 12:55-13:15 IPF and lung aging Dragana Jovanovic 13:15-13:30 Discussion</p>
13.35-13.55	COFFEE BREAK			

31 October 2021 | Sunday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
14.00-15.15	SESSION 41 SATELLITE SYMPOSIUM - S6	 SESSION 42 INTERACTIVE CASE PRESENTATIONS <p>AIM: To Keep in mind which patient needs to be considered to have Immune deficiency.</p> <p>SCOPE: The effects of immune deficiency diagnosed at infancy and adolescence extending to adulthood and the effects of immune deficiency diagnosed at adulthood on lung health will be discussed.</p> <p>IMMUNEDEFICIENCY AND LUNG</p> <p>Session Chairs: Nural Kiper, Funda Öztuna</p> <p>14:00-14:15 Case 1 Tuğba Şişmanlar Eyüboğlu</p> <p>14:15-14:30 Case 2 Ayşe Tana Aslan</p> <p>14:30-14:45 Case 3 Elif Küpeli</p> <p>14:45-15:00 Case 4 Huriye Berk Takır</p> <p>15:00-15:15 Discussion</p>	 SESSION 43 PANEL <p>AIM: To formulate a national algorithm with a multidisciplinary approach for the management of hemoptysis</p> <p>SCOPE: The management of patients with hemoptysis will be discussed with a multidisciplinary team composed of experts of pulmonary diseases, radiology and thoracic surgery and recommendations will be made for a flow chart</p> <p>HEMOPTYSIS FROM 0 TO 100</p> <p>Session Chairs: Mustafa Yaman, Soner Gürsoy</p> <p>14:00-14:20 Interventional pulmonologist's contribution Ülkü Aka Aktürk</p> <p>14:20-14:40 Thoracic surgeon's contribution Hakkı Ulutaş</p> <p>14:40-15:00 Interventional radiologist's contribution Berat Acu</p> <p>15:00-15:15 Discussion</p>	 SESSION 44 PANEL <p>AIM: Evaluation of researches in the field of chest diseases in our country</p> <p>SCOPE: Designing, implementing and finalizing clinical trials, research on pulmonary diseases in our country, and analytical assessment of studies submitted to EJP will be discussed.</p> <p>RESEARCH ON PULMONARY DISEASES</p> <p>Session Chairs: Filiz Koşar, Sevinç Sarıncı Ulaşlı</p> <p>14:00-14:15 Methodological issues in clinical trials Najib Rahman</p> <p>14:15-14:30 What is the direction of pulmonary disease research in our country? Deniz Köksal</p> <p>14:30-14:45 EJP experience: Analytical assessment of studies submitted to EJP Filiz Koşar</p> <p>14:45-15:00 Discussion</p>
15.30-16.45	SESSION 45 SATELLITE SYMPOSIUM - S7	 SESSION 46 PANEL <p>AIM: To discuss the challenges in the management of elderly patients with COPD</p> <p>SCOPE: COPD in elderly patients will be discussed in terms of challenges in diagnosis, current treatment methods, importance of rehabilitation and new treatment options.</p> <p>SENILITY AND COPD</p> <p>Session Chairs: Mecit Süerdem, Muzaffer Onur Turan</p> <p>15:30-15:45 Diagnosis Mukadder Çalikoğlu</p> <p>15:45-16:00 Pharmacological treatment Muzaffer Onur Turan</p> <p>16:00-16:15 Rehabilitation Hülya Doğan Şahin</p> <p>16:15-16:30 Novel viewpoints in treatment Alexandru Corlateanu</p> <p>16:30-16:45 Discussion</p>	 SESSION 47 PANEL <p>AIM: Updates in the treatment of lung cancer</p> <p>SCOPE: Circumstances that need to be considered in the assessment of response to immunotherapy which is becoming increasingly common in the treatment of thoracic tumors, awareness-raising about skip N2 and minimally invasive and reconstructive surgery practices will be discussed.</p> <p>LESSER-KNOWN TOPICS IN LUNG CANCER</p> <p>Session Chairs: Ahmet Bircan, Akif Turna</p> <p>15:30-15:50 İRECIST and PERCIST in lung cancer Özlem Özmen</p> <p>15:50-16:10 What is "Skip N2" in lung cancer and why is it important? Berna Kömürçüoğlu</p> <p>16:10-16:30 Minimally invasive and reconstructive surgeries Kenan Can Ceylan</p> <p>16:30-16:45 Discussion</p>	 SESSION 48 PANEL <p>AIM: To discuss the gene-environment interaction in the development of lung diseases</p> <p>SCOPE: Gene-environment interaction will be discussed in parenchymal lung diseases and thoracic tumors.</p> <p>GENETIC HERITAGE OR GENE-ENVIRONMENT INTERACTION? Session Chairs: Güntülü Ak, Önder Öztürk</p> <p>15:30-15:50 In parenchymal diseases Louise V. Wain</p> <p>15:50-16:10 In lung cancer Mattias Johansson</p> <p>16:10-16:30 In mesothelioma Emanuela Felley-Bosco</p> <p>16:30-16:45 Discussion</p>
16.50-17.10	COFFEE BREAK			
17.15-18.15	SESSION 49 SATELLITE SYMPOSIUM - S8	 SESSION 50 MINI CONFERENCE <p>AIM: To assess patients with bleeding risk and review their Management</p> <p>SCOPE: Identification of bleeding risk before bronchoscopic and pleural interventions by assessing patients' comorbidities as well as drugs they use and risk management will be discussed.</p> <p>ASSESSMENT AND MANAGEMENT OF BLEEDING RISK BEFORE INTERVENTIONAL PROCEDURES</p> <p>Session Chairs: Benan Çağlayan, Nilgün Yılmaz Demirci</p> <p>17:15-17:30 Before bronchoscopic procedures Özlem Soğukpınar</p> <p>17:30-17:45 Before pleural procedures Nalan Oğan</p> <p>17:45-18:00 Discussion</p>	 SESSION 51 INTERACTIVE CASE PRESENTATIONS <p>AIM: To draw attention to controversial issues in PTE treatment</p> <p>SCOPE: Controversial issues in PTE treatment will be discussed within the framework of cases managed according to current guidelines.</p> <p>GREY AREAS IN THE TREATMENT OF EMBOLISM - In honor of Feza Uğurman</p> <p>Session Chairs: Feza Uğurman, Çiğdem Biber</p> <p>17:15-17:30 Case 1- Half-dose thrombolytic treatment in high risk elderly patients Yasemin Söyler</p> <p>17:30-17:45 Case 2 - Catheter-related treatments in the moderate-high risk group Sule Taş Gülen</p> <p>17:45-18:00 Case 3- Treatment of embolism in high risk pregnant women Berna Akıncı Özyürek</p> <p>18:00-18:15 Discussion</p>	 SESSION 52 PANEL <p>AIM: To discuss pulmonary nodule from old and new perspectives</p> <p>SCOPE: In addition to conventional approaches to the management of nodules, which are frequently seen in clinical practice, technologies such as artificial intelligence, robotic bronchoscopy and navigation systems will be discussed.</p> <p>ALAS NODULE!</p> <p>Session Chairs: Semra Billağeroğlu, Atul Mehta</p> <p>17:15-17:30 Conventional approach to pulmonary nodules Atul Mehta</p> <p>17:30-17:45 New horizons: Artificial intelligence in evaluation of pulmonary nodules Sam Armato</p> <p>17:45-18:00 Roadmap to the nodule by robotic bronchoscopy and navigation systems Septimiu Murgu</p> <p>18:00-18:15 Discussion</p>

31 October 2021 | Sunday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B	VIRTUAL ROOM C	BLUE ROOM
18.30-19.45	 SESSION 53 PANEL  <p>AIM: To ensure widespread use of pleural USG and manometry, keep in mind the resistant benign pleural fluids and discuss novelties in indwelling pleural catheters</p> <p>SCOPE: In the light of new information, pleural ultrasonography and the unexpected poor prognosis in benign pleural fluids with indwelling pleural catheters and the impact of dyspnea physiopathology in patients with malignant pleural fluid on treatment decisions will be discussed.</p> <p>APPROACH TO PLEURAL DISEASES</p> <p>Session Chairs: Muzaffer Metintaş, Güntülü Ak</p> <p>18:30-18:45 Pleural ultrasonography Najib Rahman</p> <p>18:45-19:00 The malignant face of benign pleural fluids Sevda Şener Çoçer</p> <p>19:00-19:15 Dyspnea physiopathology and its impact on management strategy in malignant pleural effusion David Feller-Kopman</p> <p>19:15-19:30 Indwelling pleural catheters - What is the current status? Philippe Astoul</p> <p>19:30-19:45 Discussion</p>	 SESSION 54 PANEL  <p>AIM: To discuss frequently seen tuberculosis-related problems in daily practice</p> <p>SCOPE: Awareness about latent tuberculosis infection which has increased with the use of immunosuppressive therapies, important decisions in the treatment of tuberculosis and management of resistant tuberculosis will be discussed.</p> <p>UPDATES IN TUBERCULOSIS</p> <p>Session Chairs: Mehmet Karadağ, Dursun Tatar</p> <p>18:30-18:50 Latent tuberculosis infection Ali Fidan</p> <p>18:50-19:10 Critical decisions in treatment Gönelç Ortaköylü</p> <p>19:10-19:30 Treatment of resistant tuberculosis and new drugs Onur Fevzi Erer</p> <p>19:30-19:45 Discussion</p>	 SESSION 55 PANEL  <p>AIM: To present latest developments in sleep disorders and update information in this field.</p> <p>SCOPE: The impact of COVID-19 on patients with sleep disorder, developments in pharmacotherapy, the effects of excessive daytime sleepiness and cancer risk in sleep disorders will be discussed by experts.</p> <p>DEVELOPMENTS IN SLEEP DISORDERS</p> <p>Session Chairs: Asiye Kanbay, Şerife Savaş Bozbaş</p> <p>18:30-18:45 Sleep disorders and COVID-19 Hilal Ermiş</p> <p>18:45-19:00 Developments in OSAS pharmacotherapy Şerife Savaş Bozbaş</p> <p>19:00-19:15 A growing problem: Excessive daytime sleepiness Oğuz Köktürk</p> <p>19:15-19:30 New horizons in the treatment of obesity Duygu Özöl</p> <p>19:30-19:45 Discussion</p>	 SESSION 56 PANEL  <p>AIM: To discuss the role of new technologies in pulmonary diseases</p> <p>SCOPE: Innovations in interventional pulmonology brought along by artificial intelligence practices, new technologies in membrane oxygenators, telemedicine and its future in pulmonary diseases and new technologies in inhalation devices will be discussed.</p> <p>LET'S TALK ABOUT NOVEL TECHNOLOGY IN PULMONOLOGY</p> <p>Session Chairs: Semra Bilaçeroğlu, Ali Musani</p> <p>18:30-18:45 Applications of artificial intelligence in interventional pulmonology Ali Musani</p> <p>18:45-19:00 New technologies in membrane oxygenators İbrahim Onur Alıcı</p> <p>19:00-19:15 Telemedicine in pulmonary diseases and its future Nicolino Ambrosino</p> <p>19:15-19:30 Novel technology in inhalation devices Can Öztürk</p> <p>19:30-19:45 Discussion</p>

1 November 2021 | Monday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B
12.00-13.15	SESSION 57 SATELLITE SYMPOSIUM - S9	 SESSION 58 PANEL AIM: Literature update on interstitial lung diseases, sleep disorders, asthma, and pleural effusion SCOPE: The most interesting articles about interstitial lung diseases, sleep disorders, asthma, and pleural effusion in recent years, which can guide clinical applications, will be summarized and new study topics will be discussed. CEAK SESSION I - Literature Update Session Chairs: Nazan Şen, Pınar Akın Kabalak 12:00-12:15 Interstitial Lung Diseases Melahat Uzel Şener 12:15-12:30 Sleep Disorders Sezgi Şahin Duyar 12:30-12:45 Asthma Hatice Eylül Bozkurt Yılmaz 12:45-13:00 Pleural Effusion Özlem Soğukpınar 13:00-13:15 Discussion
18.00-19.00	SESSION 59 EDITORIAL TEAM SESSION-1 Session Chairs: Filiz Koşar, Sevinç Sarıncı Ulaşlı, Celal Satıcı	SESSION 60 EDITORIAL TEAM SESSION-2 Session Chairs: Deniz Köksal, İbrahim Onur Alıcı, Sevilay Karahan
19.00-20.15	SESSION 61 SATELLITE SYMPOSIUM - S10	 SESSION 62 PANEL  AIM: To discuss novelties in the management of asthma SCOPE: The implications of asthma endotype on phenotype and its impact on treatment management, type-2 and non-type 2 endotype and the role of omics will be discussed. NOVELTIES IN ASTHMA MANAGEMENT FROM ENDOTYPE TO PHENOTYPE Session Chairs: Omar Usmani, Zeynep Ferhan Özşeker, Apostolos Bossios 19:00-19:20 In type 2-high endotype Chris Brightling 19:20-19:40 In type 2-low endotype Arnaud Bourdin 19:40-20:00 Role of omics Ian Adcock 20:00-20:15 Discussion
20.20-20.40	COFFEE BREAK	
20.45-21.45	 SESSION 63 PANEL  AIM: To define and discuss inequality of opportunity in interventional pulmonology SCOPE: Inequality of opportunity in healthcare, which is an important topic of medical sociopolitics and debated more in our day and age, will be discussed at length. Industry's perspective on the development of medical devices, hospital manager's perspective on having access to existing technology, bronchoscopist's perspective on the cost of high technology and trainer's perspective on education in this field will be discussed. SOCIOECONOMIC INEQUALITY OF OPPORTUNITY IN INTERVENTIONAL PULMONOLOGY REGARDING HEALTHCARE Session Chairs: Levent Dalar, Sinem Nedime Sökücü 20:45-21:00 Those with an idea and those investing in this idea Henri Colt 21:00-21:15 Inequalities in the supply of health technology Levent Dalar 21:15-21:30 The cost impasse in having access to new technology Sedat Altın 21:30-21:45 Eliminating inequality of opportunity in education and training Septimiu Murgu 21:45-22:00 Discussion	 SESSION 64 MINI CONFERENCE  AIM: To raise awareness about the extension of childhood interstitial lung diseases to adulthood and update information about mechanical ventilation strategies in ARDS. SCOPE: Childhood interstitial diseases with the new genetic classification and mechanical ventilation practices in ARDS will be discussed in the light of current information. MINI CONFERENCE Session Chairs: Nural Kiper, Serpil Öcal 20:45-21:10 Childhood interstitial lung diseases (child) Matthias Griesse 21:10-21:35 Mechanical ventilation in ARDS Müge Aydoğdu 21:35-21:45 Discussion

2 November 2021 | Tuesday

Turkey Time (GMT+3)	VIRTUAL ROOM A	VIRTUAL ROOM B
12.00-13.15	SESSION 65 SATELLITE SYMPOSIUM - S11	 SESSION 66 PANEL AIM: Literature update on lung cancer, COPD, pneumonia, and tuberculosis SCOPE: The most interesting articles about lung cancer, COPD, pneumonia, and tuberculosis in recent years, which can guide clinical applications, will be summarized and new study topics will be discussed. GEAK SESSION II - Literature Update Session Chairs: Filiz Koşar, Halil İbrahim Yakar 12:00-12:15 Lung cancer Suna Kavurgacı 12:15-12:30 COPD Ayşegül Altıntop Geçkil 12:30-12:45 Pneumonia Ali Çetinkaya 12:45-13:00 Tuberculosis Discussion Nazan Erbaş Kanat 13:00-13:15 Discussion
18.00-19.00	SESSION 67 EDITORIAL TEAM SESSION-3 Session Chairs: Şule Akçay, Ülkü Aka Aktürk, Arzu Didem Yalçın	SESSION 68 EDITORIAL TEAM SESSION-4 Session Chairs: Hilal Ermiş, Nazan Şen, Akif Turna
19.00-20.15	SESSION 69 SATELLITE SYMPOSIUM - S12	 SESSION 70 INTERACTIVE CASE PRESENTATIONS AIM: To discuss the diagnosis and treatment of COPD with case presentations SCOPE: COPD will be discussed with case presentations focusing on a range of topics such as the definition of early COPD, patients who have frequent exacerbations, eosinophilia and difficulty in complying with inhaler therapy. COPD TREATMENT WITH EXAMPLES Session Chairs: Leyla Sağlam, Nazan Şen 19:00-19:15 Case 1 Burcu Arpınar Yığıtbaş 19:15-19:30 Case 2 Seda Tural Önür 19:30-19:45 Case 3 Evren Canel Karakaş 19:45-20:00 Case 4 Nevin Tacı Hoca 20:00-20:15 Discussion
20.20-20.40	COFFEE BREAK	
20.45-21.45	 SESSION 71 PRO-CON MEETING AIM: To discuss lung cancer screening in Turkey SCOPE: Based on data from the world, the feasibility of screening in our country will be discussed and recommendations will be made to be formulated as a written report at a later stage. LOW-DOSE CT IN LUNG CANCER SCREENING Session Chairs: Ufuk Yılmaz, Hasan Batirel, Bahar Kurt, Canan Akman 20:45-21:10 Turkey is ready Tuncay Göksel 21:10-21:35 Turkey is not ready Dilek Ernam 21:35-21:45 Discussion	 SESSION 72 MINI CONFERENCE AIM: Conveying all aspects of the current policy on tobacco control SCOPE: The update of the MPOWER tobacco control policy package will be summarized and discussed in our country's conditions. MPOWER UPDATE Session Chairs: Şule Akçay, Özlem Sönmez 20:45-21:30 MPOWER Update Nazmi Bilir 21:30-21:45 Tartışma

3 November 2021 | Wednesday

Turkey Time (GMT+3)	VIRTUAL ROOM A
12.00-13:15	<div> SESSION 73 MINI CONFERENCE</div> <p>AIM: To discuss the contribution of imaging methods in the diagnosis, treatment and prognosis of COPD</p> <p>SCOPE: Imaging parenchymal pathologies and physiopathological changes in COPD and their implications in clinical practice of the disease will be discussed.</p> <p>IMAGING IN COPD -In honor of Şükran Atıkcı</p> <p>Session Chairs: Arzu Mirici, Şükran Atıkcı</p> <p>12:00-12:25 Imaging lung parenchyma Atadan Tunacı</p> <p>12:25-12:50 Imaging diaphragm Bilge Öztoprak</p> <p>12:50-13:15 Discussion</p>
18.00-19.00	SESSION 74 CASE COUNCIL SESSION <p>Session Chairs: Can Öztürk, Ülkü Yılmaz, Aydın Yılmaz</p>
19.00-20.00	<div> SESSION 75 PANEL</div> <p>AIM: To draw attention to the importance of vaccination</p> <p>SCOPE: The historical journey of vaccination will be summarized, the role of vaccines in controlling important infectious disease which affected human history will be emphasized, and in this context the impact of vaccines in fighting against COVID-19 will be underlined. Finally, the opportunities that are likely to be brought along by the developments in vaccine technology in the wide spectrum of diseases will be discussed.</p> <p>VACCINATION AND COVID-19</p> <p>Session Chairs: Şule Akçay, Erhan Tabakoğlu</p> <p>19:00-19:15 History of immunization Ayşegül Atak Yücel</p> <p>19:15-19:30 What did COVID vaccines change? Esin Davutoğlu Şenol</p> <p>19:30-19:45 The future of vaccine technology Güneş Esendağlı</p> <p>19:45-20:00 Discussion</p>
20.00-20.20	CLOSING CEREMONY
